*Incercările marcate cu \* sau hasurate NU sunt acoperite de acreditarea RENAR*

*Rezultatele notate cu “<” reprezinta valorile situate sub limita de determinare a metodei*

*Prezenta raportare este doar pentru uzul intern*

*In cazul in care valoarea determinata se situeaza la limita de admisibilitate, se inscrie si incertitudinea asociata, pentru un nivel de incredere de 95%, fiind notate cu „±x mg/l”*
